

## CERTIFICATE OF ACHIEVEMENT

اسم الطالب: محمد مبروك عباس علي الرقم القومي: ٣٠٧٠٧٢٧٢١٠٣٩١٨

**Student name:** Mohamed Mabrouk Abas Ali **ID:** 30707272103918

This is to certify that the student has successfully demonstrated the following competencies during his/her studies at Elsewedy IATS, as outlined in the following table.

محمد مبروك عباس علي

### Grade 10 Competencies - Academic year (2022/2023)

| Competencies                                                           | Grade |
|------------------------------------------------------------------------|-------|
| 1 Performs the Logical Circuits                                        | B     |
| 2 Operates various equipment and devices                               | A     |
| 3 Operating Systems                                                    | A     |
| 4 Design a wireframe                                                   | B     |
| 5 Uses Various programming Application                                 | A     |
| 6 Installing operating systems and applications                        | A     |
| 7 Develop Simple Programs                                              | A     |
| 8 Programs Advanced Software Building Blocks                           | B     |
| 9 Testing a simple program                                             | B     |
| 10 Tests the software product, its building blocks and the integration | A     |
| 11 Publishes resources on cloud systems and platforms                  | A     |
| 12 performs a multi-user network operating system installation         | A     |
| 13 Checks the standers of a software product                           | A     |

### Grade 11 Competencies - Academic year (2023/2024)

| Competencies                                  | Grade |
|-----------------------------------------------|-------|
| 1 Database Building                           | A     |
| 2 Developing Different Desktop Applications   | A     |
| 3 Developing Different Web Applications       | A     |
| 4 Using Programming as a Problem-Solving Tool | B     |

### Grade 12 Competencies - Academic year (2024/2025)

| Competencies                                                                      | Grade |
|-----------------------------------------------------------------------------------|-------|
| 1 Programming Different Mobile Devices Software                                   | A     |
| 2 Programming different web API's                                                 | A     |
| 3 Building Multimedia Algorithms                                                  | A     |
| 4 Develops software modules for embedded systems (firmware)                       | A     |
| 5 Code Modification                                                               | A     |
| 6 Develops different software integrated into IOT systems in the work environment | A     |

A= First Trail

B = First Additional Trail

C = Second Additional Trail
